

Dual Enrollment and Students with Disabilities

Congratulations on your decision to participate in the Lee College Dual Enrollment Program! In an effort to help you be successful, we would like to pass some important information along to you.

At your high school, you may fall under Special Education, Section 504, have ARD meetings, or receive some sort of accommodations in your classes. If you match any of the listed criteria or you are a student in need of accommodations, you **must** contact the Counselor for Students with Disabilities to set up services for your college classes. Modifications are offered in your high school classes, but these accommodations are **not** automatically applied to your college classes, even if the class is taught on your high school campus. The Lee College Dual Enrollment program works with your high school to ensure that you have all the tools needed for success.

Lee College is committed to providing all students equal access to learning opportunities. Disability Services (DS) is the campus unit that works with students who have disabilities to provide and/or arrange reasonable accommodations. Students registered with DS, who have a letter requesting accommodations, are encouraged to contact the instructor on the first day of class. Students who have, or think they may have, a disability are invited to contact DS Counselor, K-Leigh Villanueva for a confidential discussion at 281.425.6217, 832.556.4069, or kvillanueva@lee.edu. DS is located in the Access Center in Rundell Hall, Room 106. Additional information is available at the DS section of the Lee College website: www.lee.edu/disabilities.
