

Office of Recruitment & Outreach

The Office of Recruitment & Outreach offers new and returning students a personal contact before and during their experience at Lee College. This is done by reaching out to the community through visits to local and area schools, churches, clubs, organizations, businesses, and community events.

Our goal is to increase the awareness of Lee College and promote a college-going culture among our students by hosting special events and providing one-on-one service and support.

How Are We Doing?

The Office of Recruitment and Outreach is all about prospective students and our communities! We strive to help you navigate the enrollment process and provide you with college information and campus tours. Did our recruiters exceed your expectations? Do you have a suggestion for us? Please let us know.
