See the next entry down for instructions on using it in email signatures.

- **Standard email signature logo** ([PNG signature logo](#))
(To use in your signature, click the link above, then right-click the logo on the page that follows, and save it to your desktop. In Outlook or Entourage — not the Web version — select Tools, then Signatures, then the signature you want to edit. Drag the image from your desktop into your signature, and save. **DO NOT STRETCH OR EXPAND THE LOGO.**)
- **Black-and-white logo** ([PDF Black/White Logo](#) | [JPG Black/White Logo](#))
A black-only version of the logo, on a white background.
- **Reverse logo** ([PNG Reverse Logo](#))
White on a transparent background, to be used against dark colors.
